National Workshop on Applications of Computational Tools in Medicine and Biology (NWMB 2015)

24th January 2015

Organised by
Department of Zoology
Center for Advanced Studies
University of Rajasthan, Jaipur

About the Workshop

Bioinformatics has become an integral and inevitable part of modern biological sciences. The researchers in bioinformatics face challenging tasks of managing huge data and continually develop databases /software tools in tune with changing thrust areas of molecular biologists. The bioinformatics industry in India is expected to show enormous growth in future where many entrepreneurs realize their dreams as knowledge –based service providers.

Biostatistics is a broad and extensively active field having applications in almost all aspects of scientific studies .Biostatistics provides a conceptual framework and methodology for the treatment of data to draw valid inferences.

The proposed workshop will cover the theoretical, practical and the applied aspects of biostatistics and bioinformatics as far as possible in a clear and exhaustive manner. It is expected that the participants will find the workshop more interesting and will be able to acquire an ability to use the basic concepts in their practical and professional career.

About the University

The University of Rajasthan was established in 1947 initially named as “Rajputana University” and is located in capital of Rajasthan” Jaipur”. It is a hub for higher education, has earned several laurels including University of Potential Excellence and credited with A+ (NAAC Accreditation). It has well developed infrastructure –a feature required to impart excellent quality education and research which brightens the future of the students. Self financing courses as well as vocational skill development courses are also carried out in the University.

About the Department

Department of Zoology was established in 1960 by Late Professor L.S. Ramaswami. Although the University has numerous departments but this department under the able guidance of stalwarts is still vibrant with notable teachers and research scholars having manifold research achievements in several major disciplines. The department has been presently recognized by the University Grants Commission as Center for Advanced Studies (Phase II) and for FIST (Phase II) programme by Department of Science & Technology, New Delhi.
